

Part Number Description - Cable Manufacturing

110199	50 conductor extension cable with one end terminated to connect with Model 2115. 26 AWG PVC wire with metal shell and solder connections.
110200	50 conductor extension cable with one end terminated to connect with Model 2115. 24 AWG EE Teflon wire with metal shell and solder connections.
110201	50 conductor extension cable with one end terminated to connect with Model 2115. 26 AWG molded PVC wire with metal shell and solder connections.
110202	50 conductor extension cable with one end terminated to connect with Model 2115. 26 AWG ribbon PVC wire with metal shell and IDC termination.
110203	100 conductor extension cable with 025-04623-0003 connector one end to mate with standard Model 2500. 26 AWG PCV wire with crimp connections.
110204	100 conductor extension cable with 025-04623-0003 connector one end to mate with standard Model 2500. 24 AWG EE Teflon wire with crimp connections.
110205	100 conductor extension cable with 025-04623-0003 connector one end to mate with standard Model 2500. 26 AWG PCV wire with molded sheath over each 50 wires with crimp connections.
110206	100 conductor extension cable with 025-04623-0003 connector one end to mate with standard Model 2500. 26 AWG ribbon PCV wire with crimp connections.
110226	100 conductor extension cable with 025-04623-0003 connector one end to mate with standard Model 2500 and two each MS3120F22-55S (50 Points Wired Per) on other end. 26 AWG PCV wire with crimp connections.
110227	100 conductor extension cable with 025-04623-0003 connector one end to mate with standard Model 2500 and two each MS3120F22-55S (50 Points Wired Per) on other end. 24 AWG EE Teflon wire with crimp connections. Adapter cable with one each 100 Point.
110228	100 conductor extension cable with 025-04623-0003 connector one end to mate with standard Model 2500 and two each MS3120F22-55S (50 Points Wired Per) on other end. 26 AWG ribbon PCV wire with crimp connections.
110229	100 conductor extension cable with 025-04623-0003 connector one end to mate with standard Model 2500 and two each MS3120F22-55S (50 Points Wired Per) on other end. 26 AWG PCV wire with molded sheath over each 50 wires. Crimp connections.
110310	150 conductor with 5 foot adapter cable with one DL-156 connector on one end only. 26 AWG ribbon with crimp terminations.
110311	150 conductor with 5 foot adapter cable with one DL-156 connector on one end only. 24 AWG EE Teflon wire with crimp terminations.
110888	100 Conductor 5 foot long adapter cable with one each 100 point 025-04623-0003 Connector on one end and Female Dual D Connector on the other end. (Mates with Model 9500 or 2500 Standard Switching.) Expandable braided sleeving (over each 50 wires). 24 AWG EE Teflon wire with crimp connectors.
110889	100 Conductor 5 foot adapter cable with one DL-156 connector on one end only. 24 AWG PVC wire with crimp terminations.
110890	100 Conductor 5 foot adapter cable with one DL-156 connector on one end only. 24 AWG EE Teflon wire with crimp terminations.
